**Good Faith Fee Estimate**

You are entitled to receive this “Good Faith Estimate” of what the charges could be for psychotherapy services. Most clients will attend one psychotherapy visit per week, but the frequency of psychotherapy visits that are appropriate in your case may be more or less than once per week, depending upon your needs. Based upon a fee of \$135 per visit, if you attend one psychotherapy visit per week, your estimated charge would be \$540 for four visits provided over the course of one month; \$1080 for eight visits over two months; or \$1620 for 12 visits over three months. If you attend therapy for a longer period, your total estimated charges will increase according to the number of visits and length of treatment.
